

ProLift Toyota Material Handling Expands Product Line With Snorkel Lifts

For Immediate Release: March 18, 2024

ProLift Toyota Material Handling is thrilled to announce the addition of Snorkel Lifts to its robust lineup of material handling solutions, now available to customers across Kentucky, Ohio, Indiana, and West Virginia. This strategic expansion introduces a wide range of scissor lifts and boom lifts, designed to meet the diverse needs of the industry and exemplify ProLift's commitment to value, safety, efficiency, productivity, and ease of service.

With Snorkel's impressive global footprint, featuring five manufacturing plants and over 200 distribution centers, ProLift is positioned to deliver specialized aerial lift equipment with unparalleled consistency and reliability to a broad spectrum of industries.

“As we branch out into new and evolving markets, maintaining our role as an indispensable partner to our customers is paramount. By integrating Snorkel Lifts into our portfolio of product offerings, we reaffirm our dedication to this mission”, said Steve Smith, Vice President – Sales at ProLift Toyota Material Handling.

ProLift Toyota Material Handling is a premier provider of comprehensive material handling solutions, including an extensive range of new and used equipment, rentals, maintenance, parts, and more. This product expansion underscores ProLift's unwavering commitment to our customers.
